

Documentation for communicating servers.

Node -> python & python -> node

This documentation is made, with the presumption that Ngroks is used to create a tunnel, for the user to use.

Node endpoints:

If using localhost instead of Ngroks or other tunnel/host, the port 8080 should be used.

Parser types	Node self-requests	Request to python from node
XML	/nodeXml	/p2nXml
TXT	/nodeTxt	/p2nTxt
YAML	/nodeYaml	/p2nYaml
JSON	/nodeJson	/p2nJson
CSV	/nodeCsv	/p2nCsv

Python endpoints:

If using localhost instead of Ngroks or other tunnel/host, the port 8000 should be used.

Parser types	Python self-requests	Request to node from python
XML	/pythonXml	/n2pXml
TXT	/pythonTxt	/n2pTxt
YAML	/pythonYaml	/n2pYaml
JSON	/pythonJson	/n2pJson
CSV	/pythonCsv	/n2pCsv
